

ODDITIES

THE STRANGE & UNUSUAL

- Josh picked up strange and unusual objects at estate and yard sales for years until his personal collection became too massive to manage so he opened not just one, but two brick and mortar locations and created an oddity empire.
- The shop carries items including human skeletons, a preserved fawn, a giraffe foot, an antique casket, embalming tools, and mortician kits.
- Eryn is Josh's right-hand woman and manages the store.
- Josh does a lot of hands-on work himself, from refurbishing to preserving and mounting specimen. For the complicated items, he visits his restoration team down the street - Nathan, Dave and Mark.
- Nathan has a Masters in Engineering and is skilled in mechanical restoration and woodworking. Mark is a jack-of-all-trades when it comes to fabrication. Dave is skilled in electrical engineering and accompanies Josh on his picking excursions.
- Josh scours the newspaper for upcoming estate sales, yard sales and garage sales. He once traveled to Virginia to retrieve a horse skeleton that a family buried in their yard.
