

# JOSELINE HERNANDEZ PROJECT

## Seanyce “Daisy” Bishop

### “The Wildflower”

**Name:** Seanyce “Daisy” Bishop “The Wildflower”

**Location:** Miami, FL

**Occupation:** Exotic Dancer

**The Backstory...** Seanyce started dancing when she was 18-years old. She doesn't regret picking this controversial career choice over going to college like her family expected. Her stage name is Daisy and on an average night she can make \$2K. Her motto is “funds over fun” - she says that just because she's a stripper, it doesn't mean she's a naïve party girl. She takes pride in her work and wants to make as much money as she can while she's still in her prime. Her high profile clients include NBA players Dwayne Wade and James Hardin, the rapper Future, ex-Kardashian Black China, and heavyweight boxer Floyd Mayweather. She is currently seven months pregnant and is on hiatus from the pole until she gives birth to her son. Her “square” friends and her family wish she would go back to college and get a “real” job after the baby is born, but Daisy isn't ready to give up the money... especially now she's about to have a baby to provide for.

**Parenting Style...** Daisy says she's never been “mommy-ish” and has no idea what to do with a baby. She isn't sure what her parenting style or philosophy will be and plans on playing it by ear. That being said, she has decided to go the holistic route and will deliver her son Nico via water birth, and has decided not to vaccinate him. Her and her baby's father, Flower, have a complicated relationship. Daisy wants to raise her son in a two parent household which is something she missed out on as a child. Only time will tell if she and Flower can make things work, get married and raise their son together.

**Connections...** Daisy is one of Joseline's friends and mentees. Daisy goes to Joseline for life, pregnancy, relationship and mothering advice. If Joseline decides to manage or open her own strip club, Daisy would be the first one to take the stage in her five-inch stripper heels.
